**WHEREFORE, HERETOFORE, AND FOR THE LOVE OF BASIC HUMAN DECENCY AND MODERN OPERATIONAL COMPETENCE:**

I have worked in managed services IT and freelance web development, supporting clients across nearly every sector of the United States economy. I have forgotten the names of more line-of-business applications I have repaired and supported than I could possibly enumerate.

**I HAVE NEVER SEEN SUCH DEPRECATED BULLSHIT IN ANY OF THEM.**

At 27, I was ready to buy a home for my son to grow up in. Then you idiots got involved with my family.

**1,548 EMAILS RECEIVED FROM THIS MULTIMILLION DOLLAR SYSTEM IN MY GMAIL SINCE ONLY MARCH 30TH WITHOUT BEING MEANINGFULLY HEARD—ONLY INJUSTICE SERVED BY YOUR ANTIQUATED GAME.**

**At least 13 documented court-directed requests** for a GAL or neutral child-impact investigation in 2026.

**14** including the July 20 OCFS investigation referral.

That excludes duplicate service emails, corrective resubmissions and unsigned drafts. The full historical corpus could establish an even higher count.

NOT ONCE WAS NEUTRAL INVESTIGATION CONSIDERED.

**MR. JOHN B. LUCY,** OPPOSING COUNSEL'S COLLEAGUE OF MORE THAN THREE DECADES REFUSED 3X GAL GLENN ANDERSON'S TESTIMONY

**MR. JEFFREY H. MOSKOWITZ** DID THE SAME, THEN RELIED ON MR. LUCY'S IDIOCY IN DENYING MY MOTION TO ENFORCE.

BOTH DESPITE BEING INFORMED OF THE NOW 16-YEAR LONG CONTINUING PATTERN OF ALIENATING CONDUCT.

BOTH TOOK NEAR 6-WEEKS TO PRODUCE AN ORDER.

## MR. LUCY ALSO REPEATEDLY DENIED TRANSCRIPT AT STATE EXEPSNE AFTER FUCKING UP REPEATEDLY. THE LAW COURT THEN USED THAT TO DENY THE APPEAL, AFTER FORCING ME TO WAIT NEARLY ANOTHER ENTIRE FUCKING YEAR WHILE OPPOSING PARTY CONTINUED POISONING MY SON. MR. LUCY'S ORDER IS FRAUGHT WITH FUCK UPS. EVEN USED THE WRONG NAME FOR THE OPPOSING PARTY 19-TIMES. NINETEEN FUCKING TIMES.

# AND THAT IS RESPONSIBLE DECISION MAKING? I DONT FUCKING THINK SO.

## Don't like my tone? Go to hell. I'll be polite when you idiots stop harming kids across generations.

Attorneys charging $200+ an hour. Judge salaries exceeding $174,000 a year. Title IV-D and Title IV-E funding clearly influencing policy despite the KNOWN harms. Maine's 2023 child-removal rate approximately 75% above the national rate.

**I wanted to finance my son's childhood, the home he should have grown up in, not the legal profession's billable hours for arrogantly harming others.**

**On November 25: 1,548 eFiling notifications since March 30.**

Today: another 15 rejection notices in 13 seconds. Thirty emails for one envelope (324043). Yet your notices expressly say I can submit the very same documents on paper "as they are."

**You insist upon procedural formalities reminiscent of the mid-eighteenth century, yet apparently cannot be bothered to read a fucking thing submitted pursuant thereto.**

Reopen ticket 1574934. Identify the actual defects. Implement basic pre-submission validation. Stop passing responsibility between the vendor and the court.

**Paper-based procedure of antiquity, even if digitized, is not justice. Neither is your sick racket forcing families into bankruptcy to line your wallets.**

Stop wasting families' resources. Stop harming children. Fix the damn system.

**Governor-elect Pingree** — please do better for Maine's families instead of allowing these idiots to continue harming them. The children of our state need that of you. Please help them.

**P.S.**

**Ms. Stanfill —**

We don't need more lawyers. We need a system that requires fewer of them.

We need less procedural bullshit, fewer rejection loops, fewer unnecessary hearings and an end to the games played with children's lives.

We need NO incentives for causing harm, tearing families apart, and generating billable hours.

We need independent, impartial, evidence-based investigations conducted by qualified professionals whose objective is protecting children and preserving safe, healthy parent-child relationships—not prolonging adversarial litigation.

A parent seeking help should not have to finance years of legal warfare or earn the equivalent of a law degree simply to be heard.

Children's developmental years should never become billable hours.

Justice should be measured by the health, safety and well-being of the families it serves—not by docket dispositions, fees collected or procedural compliance.

Stop monetizing family conflict. Start resolving it.

The objective should be to rebuild families, not perpetuate the disputes that tear them apart.
